Welcome

Now is your chance to contribute your ideas. The federal-provincial/territorial Ministers responsible for sport have agreed that officials should proceed with developing a successor to the Canadian Sport Policy. Governments are collaborating with sport communities and Canadians from coast to coast to develop a Canadian Sport Policy that makes us proud of our sport system and its achievements both at home and abroad. The vision embraced by the policy will lay the foundation upon which we will focus our efforts over the next ten years to improve sport in Canada. Thank you for taking a few minutes to complete the following survey by June 27, 2011 (anonymity will be respected). A general comment box is provided at the end of the survey to share your thoughts regarding the next Canadian Sport Policy. Information gathered in this survey will be shared with third parties and government officials for the development of Canada’s next sport policy and other relevant sport research. The combined responses will provide a better perspective of the existing opportunities and challenges related to sport so that together we can strengthen sport in Canada. Click "Next" to get started with the survey. If you’d like to leave the survey at any time, just click "Save and continue later". Your answers will be saved and you can return later to complete the survey.
