WHAT ARE SOME OF THE CURRENT LIMITATIONS?

#	Response
1.	Outlying communities in the Yukon have difficulty with access to appropriately sized facilities required to host larger groups of participants. Regarding the national body, Canada 55+ Seniors Games held every 2nd year, has never had any Federally mandated funding. Regular and consistent Federal funding promoting the National Seniors Board for the purpose of promoting and implementing biannual activities would be much appreciated.
2.	High turnover of volunteers, inconsistent opportunities for participation, access to facilities, programs and equipment, transportation, access to competition
3.	Small community with limited resources and conflicts in scheduling of participants with other sports.

4.	The Guiding program includes opportunities for sports (team and individual) and physical activities for girls. Our limitations here in the Yukon are mostly human resource based (having folks with the skills to teach / evaluate) but also climate based.
5.	We had just embarked on a coaching program two years ago and this year had attracted another great coach only to find that assistance was cut 50%. Pretty tough to attract kids when you are on again off again as an organization!!!
6.	High volunteer burnout; good volunteers get stretched too thin (many sports competing for the same resources)
7.	il n'y a pas d'installation permanente (gymnase équipé) pour promouvoir et entraîner les jeunes en athlétisme au Yukon (sauts, lancer, courses...)
8.	passionate staff and volunteers
9.	too much reliance on volunteers. Would like to see more integration with school system
10.	Volunteers at the executive level

WE WELCOME ADDITIONAL COMMENTS AND FEEDBACK.

#	Response
1.	There is a need for Federal support to the Canada 55+ Seniors Games held biannually. There is a need for community leadership coordinators for seniors across the north. Small populations in outlying communities result in lack of resources and support for seniors.
2.	There needs to be more support for non competitive physical activity through life long sport. There needs to be more support for introductory involvement in sport and physical literacy opportunities. There needs to be more opportunities for people of all ages to become involved in sport and ophysical activity through non-competitive activities.
3.	Girl Guides of Canada - Guides du Canada offers a safe, accepting environment with diverse and exciting programs and activities that offers girls the chance to learn, grow and discover through age-appropriate programming. Sports and physical activities are one part of this -- Inspiring girl greatness has always remained the cornerstone of our organization. I did not answer the sports-specific questions in this survey because I am not familiar with the issues and they do not

relate significantly to GGC's activities and goals. Thank you for the opportunity to participate, however!

4. There has to be a commitment from Government and a realization of what sport does for the social fabric of our country.

5. Valorisation du sport populaire versus sport d'élite

6. Thanks for providing the opportunity
