

Sport Participation Research Initiative (SPRI) Annual Progress Report

The purpose of this report is to provide Sport Canada with an annual update for projects funded through the [Sport Participation Research Initiative \(SPRI\)](#). You will be asked to complete this report once per year until your project is completed.

If your project is complete, you will update the project status to “completed” in the report. You will also be asked to write and upload a Knowledge Transfer (KT) Paper using the online form. You can download a template for your KT paper from the [SPRI Researcher Information](#) page on the SIRC website.

Before filling out this form, please review the [questions you will be asked](#) and be prepared to answer all questions in a single session. If you exit the form before you have completed the report, your progress will not be saved, and you will be required to start over again the next time you access the form.

As a reminder, SPRI funding is intended (in part) to support your participation at the annual Sport Canada Research Initiative (SCRI) conference. We encourage you to attend and, if results are ready to share, present the findings of your SPRI-funded research at SCRI. Details about the SCRI conference, including registration and abstract submission information, are available at <https://sirc.ca/scri/>.

If you have any questions, please contact Veronica Allan at vallan@sirc.ca.

Project Information

1. Please fill in the following:

Contact name:

Email address:

Name of lead researcher (if different from above):

Project title:

2. What sport context does this project focus on? (Select all that apply)
 - **Introduction to sport:** Canadians have the fundamental skills, knowledge and attitudes to participate in organized and unorganized sport.
 - **Recreational sport:** Canadians have the opportunity to participate in sport for fun, health, social interaction and relaxation.
 - **Competitive sport:** Canadians have the opportunity to systematically improve and measure their performance against others in competition in a safe and ethical manner.
 - **High-performance sport:** Canadians are systematically achieving world-class results at the highest levels of international competition through fair and ethical means.
 - **Sport for development:** Sport is used as a tool for social and economic development, and the promotion of positive values at home and abroad
 - **Other:** (please specify)
3. What population or group does this project focus on? (Select all that apply)
 - Women and girls
 - 2SLGBTBI+
 - Indigenous Peoples (including First Nations, Inuit or Metis)
 - Newcomers to Canada (immigrants or refugees who arrived in Canada within the last 5 years)
 - People with disabilities
 - Racialized people
 - Athletes
 - Coaches
 - Officials
 - Sport organizations or administrators
 - Volunteers
 - Children (0-12 years)
 - Adolescents (13-17 years)
 - Young adults (18-29 years)
 - Adults (18-64 years)
 - Older adults (65+ years)
 - Other: (please specify)
4. Project status:
 - In progress
 - Completed

In progress projects

1. When do you anticipate that this project will be completed?
2. Please describe the work that has been completed on your project to date:
3. Please outline the next steps for your project:
4. Please describe any changes to your project as proposed in the original grant application:
5. If available, please list citations for refereed presentations or publications that have resulted from this project over the past year.
6. If available, please include citations or links to any knowledge translation products created for this project (for example, videos, blogs, infographics) over the past year. For copies that are not posted online, hard copies can be uploaded below.
7. File upload #1:
8. File upload #2:
9. File upload #3:
10. File upload #4:
11. File upload #5:

Completed projects

1. How will the findings of this research contribute to achieving the objectives of the [Canadian Sport Policy](#)?
2. Please provide a **brief summary** of your project (400 words or less). In your summary, please describe the objectives of your research, your participants, how you collected and analyzed your data, and key findings paired with practical implications for relevant Canadian sport sector stakeholders (e.g., athletes, coaches, officials, parents, sport administrators, policymakers). **Your summary should be written in plain language for a non-academic audience.**
3. Please upload your Knowledge Transfer paper here:
4. Please list any sport organizations, governments (units, branches or sectors) and/or groups to which Sport Canada should disseminate your Knowledge Transfer paper. You will be included in any communications.
5. Please describe strategies (completed or planned) to share the findings of this project with Canadian sport sector stakeholders.
6. If available, please list citations for refereed presentations or publications that have resulted from this project over the past year.
7. If available, please include citations or links to any knowledge translation products created for this project (for example, videos, blogs, infographics) over the past year. For copies that are not posted online, hard copies can be uploaded below.
